**COVERAGE and DURATION**

CARDONE warrants that it will provide a free replacement for any CARDONE® Reman unit that fails or proves defective during the warranty period on the vehicle for which it was originally installed. This warranty does not apply to a CARDONE® Reman product which has been altered, misused, damaged, installed improperly, installed on a vehicle for which it was not designed or installed on a racing or high performance vehicle. On commercial/fleet vehicles, all CARDONE® Reman products listed above are covered for up to 1 year or 29,000 km, whichever occurs first. Additional conditions may apply to certain part applications, and if they do, these conditions are clearly marked in the product box or on the unit. This warranty is extended only to the owner of the vehicle on which the CARDONE® Reman unit was installed, while that person owns the vehicle, and is not transferable.

For CARDONE® Reman Drive Motor Batteries, warranty is void if any of these conditions occur: tampering or removal of manufacturing ID labels or "Warranty void if removed" labels; opening or modifying battery assembly pack; attaching battery pack to any unauthorized accessory (including battery charger); any missing, swapped or altered components; installation after "Do Not Install After" date; removal of Shelf-Life Label; poor vehicle maintenance that prevents recharging of the battery pack; diagnostic trouble codes that do not point to failure of battery pack.

**REMEDY and SERVICE**

A replacement for a failed or defective CARDONE® Reman unit is available from the point of purchase. The unit must be returned with proof of purchase and a written description of the failure or defect.

Before issuing warranty credit, CARDONE will validate the information provided and alleged defect. There are four reasons why CARDONE may not issue warranty credit, even with completed information:

1. The product is not a CARDONE unit.
2. The product is actually a core.
3. The product was never installed on a vehicle.
4. Damage was caused by installation error or an external factor that occurred after product left the factory and does not pertain to the manufacture of the unit.

For CARDONE® Reman Drive Motor Batteries, customer must call CARDONE's Technical Service Hotline (888-280-8324) within 5 days of discovering a defect and report the following: CARDONE part # and serial #, date & mileage when battery was installed and when issue occurred, date on Shelf-Life Label, ALL diagnostic trouble codes (DTC) as reported by an OBD II scan tool. CARDONE will provide a Warranty Reference # that must be clearly marked on the returned battery package. Battery must be returned within 30 days of receiving Warranty Reference #. Proof of dates, mileage and DTCs may be required.

**EXCLUSIONS**

CARDONE makes no warranties of merchantability or fitness for a particular use or purpose and no other warranties, representations or guarantees, whether written or oral, beyond those contained in this warranty. The replacement of the unit is the sole and exclusive remedy for the claims of any type (including personal injury) arising from the failure or defective condition of the CARDONE® Reman unit, from CARDONE's negligence or breach of legal duty, or otherwise. CARDONE will not reimburse the vehicle owner for the cost of removing or returning the failed or defective unit, installing the replacement unit or replacing any other parts, or for any other expenses, charges or damages.

**LIMITATION on LIABILITY**

To the extent allowed by law, CARDONE will have no obligation to the vehicle owner for any incidental or consequential damages arising from the failure or defective condition of the CARDONE® Reman unit, from CARDONE's negligence or breach of legal duty, or otherwise. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state.
